

Walk or roll around the block: Rules and Laws activity

Not all kids can walk to school, however, all kids can walk or roll.

As a class, allocate a day in which your class will safely walk or roll around your school block.

With your teacher, slip, slop, slap, and walk or roll around your school block.

Use the footpath.

Stop regularly and take notes!

Take photographs if your teacher permits.

1. **What are the rules and laws you are following?**
2. **What rules and laws do you notice?**
3. **What rules and laws are other people following (or not following)?**
4. **Why are rules and laws so important?**

Send your class results into us at the Constitutional Centre.
